“Education Will Never be as Expensive as Ignorance”

ASHI® Great Lakes Chapter 2010 SUMMER EDUCATION

Once again the Great Lakes Chapter will host a Peer Review & Education Review program on Friday. Reservations are limited, so be sure to contact our Chairman, David Bunker to reserve your space today! There is an additional fee of \$25.00 per person, per program to participate. Participants will earn 3 ASHI CE Credits. David can be reached at 847-735-1750 or by email linspector1@comcast.net

Rates have been negotiated with the Holiday Inn Express for \$85.00 per room (single or double). Amenities include; free wi-fi, fridge & microwave in room, free parking, free breakfast, pool and free shuttle to JC Restoration. Please contact the hotel to make reservations, deadline to take advantage of these rates is July 1, 2010.

Conference check-in begins at 7am, Saturday at JC Restoration. Walk-in registrations are always welcome! GLC's President Bob Peterson will welcome attendees and introduces our line-up of speakers and vendors, please refer to schedule and details inside.

On Saturday you'll learn more about moisture problems than Kermit the Frog. We've invited Mike Paret from Jolly 'OI England (where they know a think or two about damp) to teach us how moisture flows, where it stops and what it can do to buildings. Mike's work in the field of building surveying has involved comprehensive assessments and in-depth testing and chemical analysis into the causes of a wide range of building failures and involving the preparation of complex reports and specifications. He has vast and varied experience of contract supervision from inception of minor to major building refurbishment schemes through to practical completion.

For the past 25 years Mike has specialized in Pathological investigations of buildings and has been acting as an independent building pathologist and dampness consultant since 1999. He is regularly appointed as a single joint expert in disrepair cases before various British Law courts and between both parties to litigation. He has also regularly acted for both Claimants and Defendants in matters of Disrepair and Statutory Nuisance.

Please visit www.buildingpathology.net for more information on Mike's work.

Sunday's program will be presented by Mark Hathaway, Environmental Division Manager, J.C. Restoration. He will show us how his company restores homes and buildings after floods and other natural disasters. Education is a core value at J.C. Restoration. JCR is a fully accredited continuing education provider for the IDFPR Division of Insurance. JCR-produced courses are designed to demystify the many techniques and technologies utilized in the disaster restoration industry

For two and a half decades, JCR has been successfully restoring damaged properties in the greater Chicagoland area for thousands of Home and Business Owners. JCR offers complete emergency mitigation and restoration services for properties affected by Water, Fire, Smoke, and Storms; as well as Mold.

This is going to be another exciting year for GLC Education! Incorporating established home inspection tips and practices then combining them with new techniques that will challenge “the way we always do things”.

REGISTRATION DEADLINE IS July 1st

*Approved to Award six (6) IL CE Credits
Approved to Award up to 16 ASHI CE Credits*
